Sorab ...	Tattaru Apina Katte.	353	4,950

Objections, if any, to the proposed restoration of the said Tank may be preferred in writing before the undersigned within two months from the date of this notification.

3399 N. S. HIRANNAYYA, *Dy. Commr.*

CHITALDRUG DISTRICT.

Notification dated 1st November 1946.

No. M6. C. 609—46-47. Whareas it has been directed by Government that an enquiry be held in connection with the construction of a reservoir across Suvarnamuki river above Kariyala village in Hiriyur Taluk under sections 26 and 27 of the Irrigation Act, it is hereby notified for the information of those concerned that an enquiry will be held at Javanagondanahally camp in Hiriyur Taluk on the 6th December 1946, and 7th December 1946, to consider objections and suggestions in this respect. The particulars of the general scheme of the proposed construction of the reservoir together with details of the estimated cost are as specified below :—

The people of Javanagondanahally and other surrounding villages have been suffering for want of irrigation facilities on account of the scarcity of rainfall in these regions. There is a stream called Suvarnamuki river to which joins the waste weir halla from Borannanakanive reservoir. The ryots of the abovesaid villages pray to make this water in the stream available for irrigation which can be done by construction of a reservoir higher up across the stream. Hence it is proposed to construct a reservoir at a site selected which is about 4 miles from Javanagondanahally village to its west and 2 miles above Kariyala village along the stream. The capital cost of the project is estimated at Rs. 10,00,000 (Ten lakhs) and the recurring expenditure involved is stated to be Rs. 1,140 (One Surveyor on Rs. 80 *plus*, 15, 95, × 12 = 1,140). This project is proposed to irrigate about 2,650 acres of land. A statement of the lands proposed to be irrigated is enclosed. It is stated that the ryots have executed a mutchalika previously agreeing to pay a contribution of Rs. 100 and water rate of Rs. 5-8-0 per acre. But the Government have since directed that the maximum contribution payable by the ryots to be benefited by the project be fixed at Rs. 150 and water rate of Rs. 10 per acre.

The holders of lands in the benefited area and others interested in the project are hereby invited to submit any objections or suggestions that they may desire to make on or before the dates prescribed in the notice and to produce evidences, if any, in support of such objections or suggestions on the dates appointed for holding the enquiry.

Objections and suggestions received after the prescribed time will not be entertained.
